Cc: sailordel <del@sailordel.com>, MYCFL Fleet <mycflfleet@gmail.com>

Hasty:

Thanks for getting this rating done -- sorry this response took so long but it took a while to catch up with Tom and get the following information:

Regarding the underbody configuration, the boat has a kick up center board between the hulls under the mast, 4.5 ft deep.

I also asked him about boats that might be similar. He mentioned that the Edel cat 35 is similar in design -- Scat is a lot lighter and has less sail area. He also mentioned that the Stiletto 30 is similar but it is an all out race boat: tall mast(42ft), Two feet wider than Scat the Cat, dagger boards in the hulls and weighs 1500 lbs less.

BTW: Tom built Scat the Cat himself :-)

Let me know if any of this would change your initial rating.

Also, in the future, feel free to use me to help you get any missing information or to clarify any questions you might have about the information that people provide.

Thanks

Be well
jack
